A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan, or a Tax-Free Saving Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own or sell units of the Integra Short Term Investment Fund.

Sales charges

The Integra Short Term Investment Fund is "no load", meaning when you buy units of the Integra Short Term Investment Fund directly through us, you pay no fees when you purchase, switch or redeem. If you buy units through another registered broker or dealer, they affect you because they may charge you fees to purchase, switch or redeem units. These fees would be negotiated between you and the dealer.

Fund expenses

You don't pay these expenses directly. They reduce the fund's returns. As of December 31, 2010, operating and trading expenses plus the maximum investment management fee (which is not reflected in the fund's returns) equalled 1.03%. This equates to \$10.30 for every \$1,000 invested.

	Annual rate (as a % of the fund's value)
Management expense ratio ("MER") – This is the total of the maximum management fee and the fund's operating expenses. The management fee is paid directly by the investor. The maximum management fee, before applicable taxes and expressed as % of assets under management, is 0.75%. Operating expenses paid by the fund are 0.28%.	1.03%
Trading expense ratio ("TER") – These are the fund's trading costs.	0.00%
Fund expenses (operating expenses and TER)	0.28%

Other fees

Fee	What you pay
Short-term trading fee	Up to 2% of the redemption price if you redeem within 90 days of purchase. This fee goes to the fund.
